

Premier® LTX®

Speed Rating: H, V

Safe When New. Safe When Worn.

Shorter Stopping

Even when worn, the MICHELIN® Premier® LTX® tire still stops shorter on wet roads than leading competitors' brand-new tires.¹

Hydroplaning Resistance

With EverGrip™ technology, expanding rain grooves widen and emerging grooves open as the tire wears to maintain traction.

Excellent Wet Grip

Extreme amounts of silica in the EverGrip™ Compound provides exceptional wet grip for everyday handling.

Lasting Winter Performance

Sunflower Oil keeps the EverGrip™ Compound flexible in lower temperatures along with many tread blocks and sipes that act as biting edges to cut through the snow.

¹ Based on internal wet braking tests from 50 MPH versus Goodyear® Assurance® CS TripleTred™ All-Season tire and Continental CrossContact™ LX20 tire in size 255/55R18 109H; using the MICHELIN® Premier® LTX® tire in size 255/55R18 109H buffed to 5/32" of tread. Actual on-road results may vary.
